SEA BREEZE XL

A wide-angle photograph of a sunset over a body of water. The sky is filled with dramatic, dark clouds illuminated from below by the setting sun, creating a vibrant orange and red glow. The water in the foreground is calm, reflecting the intense colors of the sky. In the middle ground, a long wooden pier extends from the left side into the water. The pier has a small covered structure at its end and several smaller boats moored along its length. To the right of the pier, the water meets a marshy area with tall grasses. In the far distance, a low-lying shoreline with some buildings and a water tower is visible under the twilight sky.

THE LOCATION
